

# Farmyard

Children will be finding out about where different foods come from and how they grow. They will also explore different farm animals matching them to their young.

## Vocabulary

farmer

mammal

livestock

plough

baby animal names

lifecycles

Can you describe the lifecycle of a chicken? How do we take care of chicks to grow?

What are some of the jobs a farmer has to do? Can you name the different types of farms?

Take a look at these animals and their young. What differences can you see between the babies and their adult parents?
